*NOTE: Students intending to pursue licensure in another state should research licensure requirements in that state and pursue Academic Advising regarding graduation planning. The landscape of educational requirements for counseling licensure is changing all the time as states begin to adopt similar language and requirements as those put forth by the national accrediting body, Council for Accreditation of Counseling and Related Educational Programs (CACREP). The MAC degree is designed to be CACREP-aligned and portability-aligned to help equip students with a degree that closely matches the degree requirements of most states.
