

Course Offerings

2021 – 2022

Academic Year

This list shows all courses offered for the current academic year. Some information may be incomplete at the time of posting, but we will update the list as new information becomes available.

Auditing Courses: Most courses are available for audit by alumni and spouses—and anyone else—at the **reduced audit fee of \$48 per credit hour**. Alumni may audit some language courses in order to refresh their knowledge of these languages for ministry purposes, but in general language and homiletics courses, internships, practicums, independent studies, graduate seminars, and other courses highly specific to our degree programs are not available for audit. **Courses NOT eligible for audit are marked **.**

Learning Modes: Courses listed as “On-Campus Courses” take place entirely on our St. Louis campus. Courses listed as “Online Courses” are offered entirely online. Courses listed as “Hybrid Courses” are offered in a mostly online format but also require some portion of the course to be taken on our St. Louis campus in an intensive weekend or week-long format.

For more information, contact our Admissions office at admissions@covenantseminary.edu or apply online at www.covenantseminary.edu/admissions/apply-now.

Days/Times: Online component, August 30 – December 17; On-Campus component, September 17 – 18 and October 29 – 30

Instructor(s): TBD

Credit: 2 units

Description: Urbanized areas are dynamically complex social, political, economic, cultural, and religious ecosystems that variously express God's shalom purposes as well as sin and its effects. Fruitful leadership for community transformation in today's cities requires a nuanced understanding of cities as complex living systems; a biblically-faithful and deeply-cultivated theology of cities, justice, reconciliation, transformation, and God's shalom; a working taxonomy of ministry models and the ways they contribute to city transformation efforts; and a functional theological vision for city transformation that can guide the development of contextually-responsive and biblically-faithful ministry efforts. In service to developing these competencies, this course invites participants to engage with and deploy the resources of Scripture; theology; social sciences; their learning community; and the wisdom and experiences of community transformation practitioners in the Saint Louis context as well as in the participant's own local community context. Special attention will also be given to describing leadership for community transformation, practicing tools and processes for exegesis of cities, identifying and responding to issues related to specialization and coordination/integration in civic and gospel ministry ecosystems, considering the various roles of the local church and God's people in city transformation efforts, and engaging in practices of theological reflection that contribute to discerning, inhabiting, and being nourished by the story of God as expressed through the urbs, civitas, and animas of today's cities. NOTE: This course may include visits to churches, ministries, community organizations, or city agencies, and may require significant indoor and outdoor walking.

Asset-Based Community Development (AT522.S) – HYBRID

Days/Times: Online Component, January 24 – May 12; On-Campus Component, February 25 – 26 and April 22 – 23

Instructor(s): Prof. Jeremy Main

Credit: 2 units

Description: God's shalom purposes for his creation include just, reconciled, hospitable, life-giving, and mutually-nourishing relationships between people and the local community systems they inhabit. All urbanized areas are comprised of and shape a diverse array of local community systems or neighborhoods. Each neighborhood bears its own unique witness to God's shalom purposes; yet each also bears its own witness to the vandalism of shalom in their city. Some neighborhoods carry a disproportionate amount of these scars: a complicated result of sin and being sinned against, of disintegrated, misused, and misdirected systems that result in and sustain violence, poverty, marginalization, disinvestment, and exploitation. While it is true that people shape their neighborhoods, neighborhoods and the systems within which they exist also shape the identities, relationships, visions of life, and prospects for life (both quality and quantity) of their residents. Thankfully, God's shalom mission is concerned with both people and place. As followers of Jesus, who commanded us to love our neighbors as ourselves (Matt 22:39), who "became poor for our sake" (2 Cor 8:9), and who continues to come to us hungry, thirsty, sick, naked, and imprisoned (Matt 25:31-46), we are called "to pursue what makes for human wholeness and interdependent edification" (Rom 14:19). This course examines city transformation as it is engaged and expressed at the neighborhood level. The course is designed to equip God's people to effectively catalyze or collaborate with ministry efforts that are rooted in and seeking "from the ground up" the wholistic flourishing (shalom) of under-

resourced and historically marginalized communities in urbanized areas. Special attention will be given to exploring the foundational roles of asset-based approaches for fruitful community building and neighborhood development; the centrality of the local church in transformational neighborhood revitalization; and the importance of ongoing personal, organizational, and community-level learning in the process of transformational development under the reign of Christ. The course will also explore the practical ministry implications of the three goals of transformation: changed people who have discovered their true identity and vocation, changed relationships that are just and peaceful, and changed places that express the shalom of God in Christ for all creation. NOTE: This course includes visits to various churches, ministries, and community organizations, and may require significant indoor and outdoor walking.
